EXECUTIVE SUMMARY

Results-oriented Full Stack Developer with a strong foundation in web development technologies and a passion for creating responsive and user-friendly web applications. Proficient in HTML, CSS, JavaScript, Bootstrap, Node.js, Express.js, and MySQL. Eager to leverage my technical skills to contribute to innovative web projects and expand my knowledge in the field.

TECHNICAL SKILLS

Front-End Development	Back-End Development	Developmental Tools
Proficient in HTML5, CSS3, and JavaScript	Proficient in Node.js and Express.js for server-side development	Visual Studio Code
Strong knowledge of responsive web design and cross-browser compatibility	Understanding of RESTful API design and implementation	Git and Github
Experience with Bootstrap for building responsive and visually appealing web interfaces	Advanced knowledge of database design and management using MySQL	npm
Familiarity with modern front-end libraries and frameworks	Python	Postman

PROJECTS

Personal Website

- Developed a responsive personal website showcasing my portfolio and skills using HTML, CSS, and JavaScript.
- Implemented a contact form that sends user inquiries to my email using Node.js and Express.js.

Expense Tracker

- Created a web-based expense tracker application using HTML, CSS, JavaScript, and Bootstrap for the front-end.
- Implemented a Node.js backend with Express.js to handle user authentication and data storage in MySQL database.

Restaurant Website

Developed a 3-page mobile-responsive restaurant website using HTML, CSS, and JavaScript.

Designed an interactive and visually appealing user interface to showcase the restaurant's menu and services.

Classified Page Backend

Built the backend infrastructure for a classified page, implementing features for user registration, posting listings, and managing user accounts.

Utilized Node.js and Express.js to create a secure and efficient server-side system.
